

Senior DevOps Engineer

Novia Financial is an award-winning financial technology company based in the heart of Bath. As part of our wealth management service for investment advisers and their clients we combine the latest in wrap platform technology, online functionality, and management information.

Your day-to-day life as a Senior DevOps Engineer

As a Senior DevOps Engineer you will be working in an agile team, following scrum practices with responsibility for helping to maintain availability on current and legacy services, working with the teams involved in all stages of design, implementation and operations for new strategic services based on Azure cloud architecture.

- / Administration and automation within Azure
- / Supporting production systems through monitoring and auto-healing
- / Contributing to the development of a highly available, scalable and performant infrastructure and services
- / Contribute to the reduction of existing system manual complexity and technical debt
- / Triage operational issues
- / Support Continuous Integration / Continuous Deployment
- / Advocate best practice and a security first approach to infrastructure design and development

About you

You are a talented Engineer with an Infrastructure background and have made the move across to DevOps. You are a creative thinker able to overcome "the way things have always been done" by bringing fresh ideas and solutions. You work effectively as part of a multi-disciplinary team and have a desire to use technology to drive improvements in processes and system efficiencies, automating solutions wherever possible!

What we are looking for

Our priority is to find colleagues that share our passions and mindset. Working at the forefront of technology means that you're constantly evolving your skills and experience, so we don't expect you to have used all of our technical stack but we do expect expertise in some. It is in both of our interests to work with you in a role that speaks to your strengths and allows you to contribute, feel included, learn, grow, to have a voice and to be able to challenge in a safe and secure way.

Some of our current technical stack/infrastructure consists of:

Azure (IAAS, PAAS), VMWare, Windows Server, Linux (RedHat), Networking, Containerisation (Docker/Kubernetes), Terraform, Octopus Deploy, SQL Server, NServiceBus, NoSQL Databases (Mongo), CI/CD Builds, Git

Benefits

Aside from flexible working and an informal dress code when you are in the office we offer;

- / A competitive salary and discretionary bonus each year.
- / Group contributory pension scheme (6% employer and 3% employee).
- / 25 days holiday per annum & the option to buy/sell up to 5 additional days p.a.
- / Tech Scheme and Cycle to Work scheme.
- / Supported and encouraged Professional Development such as vocational training, Hack days, conferences, meet-up events plus regular social events.
- / Private Medical scheme, income protection scheme, group contributory pension scheme and an Employee Assistance Programme (EAP).
- / Internal mentoring scheme.
- / Interest free season ticket loans for travel costs and corporate gym membership rates.

To apply please email your CV and any cover letter to jobs@novia-financial.co.uk
