

This form can be used to verify the Investor's bank account. Once verified, Novia's records will be updated and there will be no need for further verification of these details for future instructions. Please return the form to the Adviser listed against the investor account to submit online through the bank account document upload. To help us ensure that we can verify the instruction without undue delay, we recommend all signatures are signed in **blue** ink and a colour scan is provided. Electronic or pasted signatures will **not** be accepted. Failure to provide this form in the requested format may delay any dependent payment
